OK well it's that time of the decade again...the Cannanes are on tour....and this time with a vengeance...6 of us are traipsing flying driving across the miles to get to you if you are on the west coast of the USA or in NYC and Europeans DO NOT DESPAIR- we are also playing in Berlin.

It has been a long, long time since we were on the west coast of the USA and we have never played in Berlin so we hope this tour will be full of delights but knowing the USA and its friendly denizens, we are pretty sure it will be.

A list of shows is on the next page together with a detail from an impressive cave we recently discovered in Naracoorte South Australia where the Australian megafauna used to roam in the good old days.

COMMUNICATING AT AN UNKNOWN RATE

Remember that old record/CD above.... well the pristine 'original masters' (i.e. different to CD) were finally located; and have now been rereleased by the delightful lads at CHAPTER MUSIC

At the risk of sounding rather smug, we do have to say it's rather a treat to listen to, especially if you haven't for 10 years or so. Give it a go. We know there is so much music being thrust down our throats every second, the last thing you may want is to listen to is this but give it a go -You may be surprised...we were.....

And speaking of megafauna... Watch out for even more rereleases of prehistoric material coming up...

TRIBUTE:

The Great Late Gough Whitlam- Prime Minister of Australia was farewelled by the Cannanes in October 2014 and you can listen to that small tribute here <https://soundcloud.com/chaptermusic/the-cannanes-tempus-fugit>

Those in European regions keen on attending the **Berlin** show put on by Sofa Salon...please see <https://www.facebook.com/events/491085364377244/> where you can find out the exact location of the event.

What's the buzz. Tell me what's happenin...

Recorded a smashing new album in Flagstaff USA with Stewart Anderson and Andy Coffey as the follow up to Communicating. Slated as release no 3 in the current lineup of records....which at this stage looks like

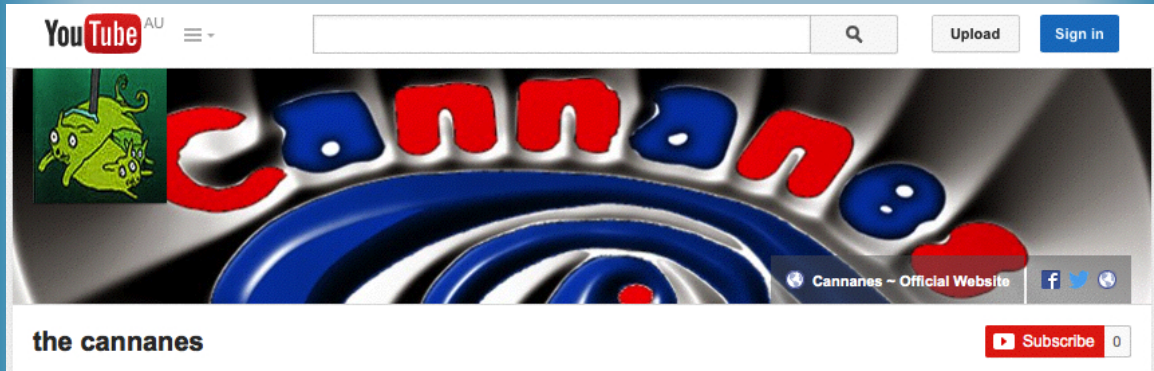

- 1 A Love Affair with Nature (REMASTERED) CHAPTER RECORDS
2. The Sun Still Sings - probably our most sophisticated record to date...one for the adults out there....
3. THE Flagstaff Recordings...Communicating style but possibly better

We have been playing some fun shows lately with the fab UV Race, The Stevens, The Ancients and others and hope to do more Melbs and even Hobart activity on return to Australian shores.

Also for 2016 next year we have agreed to play at the Manchester popfest. No doubt some other UK shows around that time especially Nottingham as we had SUCH a good time there last time.
